

New Retail Stores – Canal's Liquor & Domino's Pizza

State Highway Route 168 | Mount Ephraim, Camden County, NJ

Canal's Liquor - Conceptual Elevation

Canal's Liquor Pre-Construction

Canal's Post Construction

Project Status: Completed and Operational

A classic site re-use project with the total raising of the old City Liquor Store to make way for a new 10,000 square foot mixed use Retail Center. Stout & Caldwell was initially hired to do a feasibility study and conceptual design layouts and then for the Major Site Plan & Survey work. Our services included concept plans, boundary & topographic survey, site plan design, stormwater control, parking, NJDOT (Rt. 168) submissions, County and Township submissions, soil erosion and sediment control plans, permitting, lighting and landscaping and achieving preliminary and final site plan approvals.
