

## Buena – Green Acres Survey

State Highway 54 | Buena, New Jersey

Project Status : Green Acres Survey submission  
June 2008

Site Size	250 acres (pinelands)
Building Size	GREEN ACRES / PINELANDS
Survey Completed	PRESERVATION
	2007
Parking spaces	N/A
Storm water required	N/A
Special Permitting	NJDEP

### DESCRIPTION

Contracted by National Real Estate firm, Stout & Caldwell Engineers & Surveyors provided the Green Acres Survey as part of a public/private land exchange. The 250 acre site included multiple lots so each corner required concrete monuments, brass or aluminum caps and all of the Green Acre survey required field displays. Additionally, SC located a potential environmental concern that ended up being a former silo for grain storage, no action was required.
